TEACH Perks: Winners claim your books!

Congratulations to **Dr. Kye Kim and Dr. Judy Cusumano** for being selected as this month's book drawing winners! Winners were randomly selected from those in attendance at our last **TEACH** session. Remember to join us for upcoming **TEACH** events for your opportunity to win a future **TEACH** drawing. Winners, please make sure to pick up your copies of "Make it Stick" at our next **TEACH** session or email teach@carilionclinic.org to organize a different pick up or delivery method.

Tues, April 17, 2018 5:30pm-6:30pm / Wed, April 18, 2018 7am – 8am / Wed, April 18, 2018 12-1pm

TEACH Journal Club - TEACH Members Come on Down!

Our next **TEACH** Journal Club is scheduled for *April 27 at noon in the CRMH ED (1 South) Conference Room* with facilitator Dr. Wilton Kennedy. The article to be discussed is [Hidden Curricula, Ethics, and Professionalism: Optimizing Clinical Learning Environments in Becoming and Being a Physician](#). Bring your lunch!

Health Professions Education Survey Development Article – Try using a checklist!

In an environment where surveys are distributed to faculty and learners at a rapid rate, creating a meaningful yet brief survey tool is imperative. A successful survey needs to be clear, concise, and allow the respondent to provide answers that help inform your study. Thanks to the work of famed surgeon Atul Gawande, we all know checklists are useful in the high stakes surgery field. In the less high stakes (but equally important) world of health professions education, survey development can be a daunting and confusing task for even the most seasoned educators. So what happens when we use a simple check-list to help improve the quality and efficacy of our surveys? If you are planning to develop or distribute your own survey, take the time to [read this article](#) and review the helpful survey checklist that was developed by the authors to help reduce survey error.

New Center for Simulation, Research and Patient Safety – Simulate your way to success!

Last month marked the opening of the new Center for Simulation, Research, and Patient Safety (CSRPS). This exciting new venue will provide endless opportunity for enhanced learning and improvements to patient care. We encourage faculty to take advantage of the new and improved space to engage themselves and their learners in integrated education, clinical practice improvement and research. To learn more about the CSRPS or to reach out to a member of their team, please visit by clicking [here](#).
